SUMMARY

Full-stack software developer with a BSc in Computer Science from UBC, specializing in Java, Spring Boot, React.js, REST APIs, and microservices architecture. Proven ability to deliver scalable, production-ready web applications, including a UBC 1st Choice project that reduced manual workload by 95%. Skilled in end-to-end delivery across the SDLC, including requirements gathering, analysis and design support, coding, testing, debugging, deployment support, and troubleshooting. Experienced in Agile environments with a strong command of CI/CD, Docker, MySQL, and modern front-end frameworks.

SKILLS

Programming: Java (OOP), C#, TypeScript, JavaScript, PHP,
Front-End: React.js, Single Page Applications (SPA), TypeScript, HTML, CSS, Tailwind CSS, Bootstrap, Fetch, Axios
Back-End: Spring Boot, REST APIs, JPA (Hibernate), JWT Authentication, CRUD, Microservices
Databases: MySQL, Relational Database Design, Query Optimization
DevOps: Docker, Git/GitHub, GitHub Actions (CI/CD), Vercel, Prometheus, Grafana
Environment & Tools: Linux, LAMP Stack (Linux, Apache, MySQL, PHP), XAMPP, VS Code, Eclipse, Postman
Practices: Agile Development, Code Reviews, Unit Testing (JUnit), Integration Testing, Continuous Improvement

EXPERIENCE

Technical Support Specialist

Rogers Communications

Jan 2022 – Sep 2023
Kelowna, BC (Remote)

- Resolved ~30 technical tickets/day by diagnosing root causes across networking, software, and hardware, documenting fixes and escalations to meet SLAs.
- Followed procedures and analyzed logs and configurations to deliver actionable solutions for customers and internal teams.
- Documented solutions in an internal knowledge base, reducing repeat incidents and improving team consistency.
- Trained and mentored 4 new hires on diagnostic tools, triage workflows, and escalation practices, strengthening efficiency.
- Supported platform transitions by identifying compatibility issues, validating fixes, and coordinating with cross-functional teams to minimize downtime.

PROJECTS

TA Allocation and Management System

Spring Boot, React.js, MySQL, Docker, Prometheus, Grafana

May – Aug 2025

- Architected a microservices-based (5 services) full-stack single page application using Spring Boot REST APIs and React.js to automate TA allocation workflows, reducing manual workload by 95%.
- Implemented role-based access control (RBAC), dynamic availability scheduling via FullCalendar, JPA (Hibernate) for data persistence, and JWT authentication for secure access.
- Containerized all services with Docker; integrated observability stack with Prometheus and Grafana for real-time monitoring.
- Ranked UBC's 1st Choice Project for functionality, performance, and usability.

E-Commerce Electronics Web Application

HTML, CSS, JavaScript, Bootstrap, PHP, MySQL — Live: mvelectronics.online

Jan – Apr 2025

- Delivered a full-stack e-commerce system including catalog, cart, checkout, and admin order management with iterative testing and bug fixes.
- Developed PHP/MySQL CRUD features and AJAX live updates; improved checkout responsiveness and page load by ~30% via query and frontend optimizations.
- Designed a relational schema and implemented validation/error handling to improve stability and reduce user-facing issues.

Student Registration System

Java, MySQL, JDBC, NetBeans

Sept – Dec 2024

- Built a Java-based student registration and academic records management system using JDBC with a MySQL backend.
- Implemented full CRUD workflows with real-time input validation; designed optimized relational database schema for reliable data storage and retrieval.

EDUCATION

Bachelor of Science, Computer Science – University of British Columbia (UBC)

2025
Dean's List — GPA: 9.2/10 — Relevant Coursework: Data Structures & Algorithms (A), Databases (A+), Software Engineering (A+), Web Programming (A+), Data Analytics (A+)

Associate of Science, Mathematics & Statistics – Okanagan College

2021
Dean's List — GPA: 8.3/10

HONORS & AWARDS

- UBC Recognition: TA Allocation System ranked 1st Choice for functionality, performance, and usability.
- Dean's List: Recipient at both Okanagan College and the University of British Columbia.
- Merit List: Topped the state of Punjab, India, in Secondary Education (96.67%).
- Full Academic Scholarship: Awarded for academic excellence at Meritorious School, Bathinda.
